CASE STUDY

RioTinto

Context

The newly appointed General Manager of Operations recognised that the HSE Performance of the mining operations required significant improvement and wanted to create a strategy and process to engage the operational personnel through the application of the business systems in order to deliver safe productive performance.

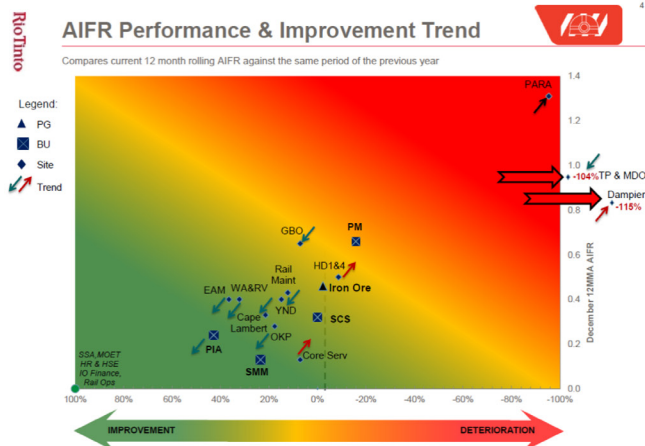

Action

Actualise collaborated with the operational leadership and operations personnel to develop and implement "Safe Production System Solution" TM throughout the Paraburdoo, Eastern Range and Channar operations.

Result

Sustained HSE performance improvement. As can be seen in the graph the metric improvement between Q4 in 2016 to 2017 was immense.

AIFR Performance & Improvement Trend Q4 2016

AIFR Performance & Improvement Trend Q4 2017
